Proven Success, Strong Leadership

While serving on the FHANA board it has been an honor to work with the board and our amazing member run committees. What matters is actions not words, the accomplishments that I have been a part of speak for themselves. It is a leader's responsibility to represent all members whether they own one or a hundred Friesians. Without hesitation I will always speak up for those that feel they do not have a voice within our organization, especially those that speak English as a second language.

We are all connected by the magic of the Friesian horse. A horse so beautiful that it unites people from across the globe regardless of race or socioeconomic status. The best days lie ahead for the KFPS and FHANA, however much work still needs to be done. FHANA needs a strong leader with proven success to represent them. I am that leader. If elected to the KFPS Member Council, I will continue to wake up every day and do my very best for the Friesian Horse and its owner.
