

I am Scott Kelnhofer. I have been flattered to have been approached to represent FHANA to the KFPS Member Council. I believe I bring with me a substantial amount of experience with the Friesian horse and FHANA. Now being out of the commercial end of the Friesian community I can voice unvarnished opinions regarding the health and welfare of this enduring breed. As Co-founder and President of the Fenway Foundation for Friesian Horses I won't be deterred by offering opinions that might affect our charitable endeavors. Fenway and my only goals are to ensure the health and well-being of this magnificent horse. Since health is now the number one priority of the KFPS strategic plan, I feel Fenway's background in Friesian research would be invaluable in the discussions that occur within the KFPS Member Council

Please take a moment to review my bullet point biography. I have now devoted twenty years to the Friesian horse and FHANA. I hope you will consider that experience when you cast your ballot for FHANA's KFPS Member Council Representative. Thank you for your consideration.

If you have any questions, feel free to contact me through Facebook, email (fenwayfarms@yahoo.com) or my cell (920-585-3244).
