The meeting started promptly at 5:30pm.

The initial discussion referenced the license application process and how it is visualized here in North America. In addition to that, should there be a limit on unlicensed stallions breeding to main registry mares. The committee feels that there needs to be some type of control on B Book II breedings in North America as indications are that some B Book II stallion owners are taking advantage of the system. After a long discussion regarding the rules currently in print by the KFPS, should remain the way they are and not be changed.

The conversation continued as it relates to the purpose for intentional breeding of B-Book II horses and much of the discussion surrounded the potential for damage to the integrity of the breed and the intention of the KFPS to maintain the studbook registry of the Friesian Horse. Further discussion as it relates to the attendance of B-Book I horses to inspections. There have not been any B-Book I horses in attendance at an inspection/Keuring in North America.

There were no motions made during this meeting.

The next meeting will be on October 17, 2023 at 5:30pm MST.

The meeting was adjourned at 6:35pm
