## Chapter News

**To be included in the Chapter news, all Chapter submissions must be received by the FHANA office by the 25th of each month. Submissions can be sent to [fhana@fhana.com](mailto:fhana@fhana.com)**

### Alberta Friesian Horse Association

This month we were faced with a heat wave. The beginning of July saw temperatures in the low 30's (or 91 Fahrenheit). Which for us Western Canadians is basically unbearable. We saw a lot of our jet black Friesians turn into some shade of brown. One such warm day was on July 6, the Calgary Stampede Parade. 14 Friesians and 25 people showed up to make it another great parade and bonus; we got some airtime on television. The following Monday, the members of the Musical Ride were back in Calgary to perform two shows: Monday and Tuesday. The show was well received and we are thankful for all those that were there to perform either in the musical ride or in the daily demos. As well as members who volunteered their time in the booth or as grooms and helpers.

Besides Calgary, AFHA has been joining parades in Ponoka and Lacombe, advertising for FHANA's 35th celebrations. Practice has started for the Friesian Quadrille who now has a year to perfect the pattern, train their horses, and find music and costumes.

Kenton has thrown himself into the world of working equitation and here his words about the show in Oregon and his Friesian Zamfire:

Day 3 speed trial was a tense one going in. Being second behind an American in dressage on day one with a score of 67 and second behind an Australian on day two in Ease of handling with a score of 66.5 putting me one point behind the leader.

I rode on the conservative side willing to take a lower final placing while ensuring I did not get disqualified. Again Zamfire did fabulous. We had a clean run and got the ring for bonus points and a final time of 2:33.

Though I was fourth in the class. (a couple ponies here are little rockets) my time was good enough to put me 2 points in the lead for first place overall in the Novice 'A' class of 36 competitors from 4 countries.

Zamfire has been a star here. Everyone loves him.

Good job Kenton and to all those riding, driving and showing off their pearls this summer!

## Lone Star Friesian Horse Club

The month of July brought everyone record hot temperatures in Texas, but junior members Rachel Tierney and Charlee Proctor attended the "To Hot To Trot Show " hosted by Lone Star Arabian Horse Club who welcomes all breeds to their show series, the show was a night schooling show Judged by Alene Espinosa, a International Judge who judges 13 seats of riding and also Sport Horse in Hand. Homemade Ice Cream was served and was located at the new Legends Horse Ranch and Polo Club a wonderful group with over 60 horses learning about showing. Several other members Caitlin Williams, Tom Pollard also rode and enjoyed classes and Mark McGowan gave a short session on CDL rules and regulations to several attendees while there with their trucks and horse trailers.

Also, Lone Star Friesian Horse Club is now hosting the Friesians again for the 2nd Dallas Charity Horse Show and the chapter now has received and was approved for their USEF license for the Charity Show. Many sponsors will again be funding awards and prizes for those who enter the show, the nonprofits benefited greatly from the Charity Show. A record draw of folks who came to see the horses at Dallas Fairpark was a hit and featured on local TV and also local national newspapers. Lone Star Friesians Horse Club is also working on hosting two more USEF events for later in the year for 2019 giving Friesian owners more ability to attend and show their black pearls with bigger awards.

Also Board members Mark McGowan, Toni Daft, Heather Blaylock, Deb Tracy, and Caitlin Williams have been working with our Chapter partnership to finalize a grant from Texas AM to offer free genetic testing to our members and their horses, which will help Texas AM to teach Veterinary doctors, students and interns about the Friesian horse. Beverly McGowan will process sending the test samples for the Texas AM Genetic Dept. for everyone. The results will be mailed to each person who has sent in samples to them directly, the testing is free, mailed privately to each owner. Only Texas AM and the owners will know the results, Texas AM is a teaching accredited Veterinary University. Our goal is to promote testing for all of our horses for betterment of the breed and to learn the mechanism of treating and breeding our horses. These tests results are official but will not be able to be used for the FHANA registry for registering horses but University of Kentucky is the Official testing facility who is conducting the required tests needed to fulfill the requirements of FHANA/KFPS. We hope that each person participants in helping the future of our horses and how important it is to support our local University in helping promote their future as well as other Universities who are also doing a service to help our breed.

Everyone is hoping for a early fall some members are planning to attend the Keurings around

country. Lone Star members are staying cool and ready for fall to happen hopefully summer will be short and fall will come sooner than expected. Please come to our facebook page as we keep members up to date with medical help, shows, events, fun facts and as well as some funny jokes to make your day.

## Friesian Horse Club of Southern California

The real summer heat finally arrived in earnest during the month of July. The day after the 4th of July, temperatures began zooming upward and by Friday had reached 118 degrees in Norco, CA. aka HorseTown USA. The high heat is always a concern for the young and the elderly, and foals are no different in that respect. A foal's body does not begin to climate regulate itself until after 6 months of age, the same as human babies. They can easily overheat and/or dehydrate without having the instinct to know what is happening to them, to get in the shade and to

hydrate themselves. Unfortunately, during that heat wave, a 3-day old foal in town succumbed to the heat and was lost. My vet said he was kept busy during that time as most of calls were to rescue dehydrated foals and colicking adults. With a mare about to foal out for the first time, I was nervous and hoping she would wait until it cooled down some. Much to my relief, she did.

My young maiden mare, Tiana Moai fan Himel (Sape 381 x Folkert 353 Pref x Sjaard 320) foaled out on July 9th at 10 PM. Unlike her mother, she was content to have people in attendance, and she successfully delivered her first foal, a beautiful filly. Grietje Elke fan Himel (Jisse 433 x Sape 381 x Folkert 353 Pref) is a lovely, strong and very determined filly who was trying to push herself up off the straw before her dam even thought of getting up. I rather believe I will have my hands full at our Keuring in Del Mar, CA in September, but I look forward to watching her and her mother exhibit their style for the audience and the judges.

As I mentioned last month, I would be checking for mid-year show reports from some of our

regular competitors. Michelle Hill and her Thomas 327 gelding, Jasper J have been very busy competing in 1st Level Dressage. The pair attended a FEI Clinic in May, a California Dressage Society A-rated Show in Highland and a 2-day, triple rated show in Somis at the Spirit Equestrian Center in June. They are taking it easy in July & August, and plan to continue competing in the fall. We wish them continued success. And, we wish you success and enjoyment in whatever adventures you are sharing with your Black Pearls during this warm weather season.
